Important Notes to Students Regarding Class Attendance Announced by BBA International Program:

Please note that any students be found that they scan ID card on behalf of the other students for student attendance checking, such manner is considered wrongdoing. Both students will be subject to the punishment as follow:

- First wrongdoing: Students will not be eligible to sit in the final exam and students have to withdraw that specific class. In addition, students will be under parole.
- Second wrongdoing: Students will get an "F" in that specific subject.
- Third wrongdoing: BBA students will be suspended from studentship for semester. Students from other program will be subject to punishment by the Dean of the faculty students enroll in.

Cheating in any form of class exam or quiz or plagiarism is subject to the penalties based on Thammasat University's student compliance act.

AC311 Class policies for AI Tools:

You may use AI programs e.g. ChatGPT to help generate ideas, brainstorm, gather/find information, check grammar and style. However, you should note that the material generated by these programs may be inaccurate, incomplete, or otherwise problematic. Beware that use may also stifle your own independent thinking and creativity.

You may not submit any work generated by an AI program as your own. If you include material generated by an AI program, it should be cited like any other reference material (with due consideration for the quality of the reference, which may be poor). You are responsible for the information you submit based on an AI query (for instance, that it does not violate intellectual property laws, or contain misinformation or unethical content). Your use of AI tools must be properly documented and cited in order to stay within university policies on academic honesty.
