BBA International Program

Faculty of Commerce and Accountancy, Thammasat University

A Course Syllabus

Section 1: General Information

1. **Course code and title**

   FN201 Business Finance

2. **Credits (hours)**

   3 (3-0-6)

3. **Curriculum and course type**

   3.1 Curriculum: Bachelor of Business Administration (Curriculum 2023, revised) and Bachelor of Business Administration (Curriculum 2018, revised)

   3.2 Course type: A specialized course (a core course or a minor requirement course)

4. **Lecturer and course administrator**

   4.1 Lecturer: Obrom Chaowalerd (อบรม เชาวน์เลิศ)

   Office hours: Wednesdays before each class (an appointment recommended)

   Communication platform: MS Teams

   - Calls: MS Teams call (Tuesdays – Thursdays: 05:30 – 07:00 p.m.)
   - Messages: MS Teams chat (anytime)

   4.2 Course administrator: Obrom Chaowalerd

5. **Semester/Academic year and targeted audience**

   5.1 Semester/AY: 1st/AY2026

   5.2 Sections: 026401 and 026402

   5.3 Targeted audience: Sophomores

   5.4 Maximum class size: 70 students

6. **Prerequisites**

   AC201 Financial Accounting or AC291 Essentials of Accounting

   (For exchange students who are not subject to this requirement, complete self-study without undue delay on financial accounting is highly recommended as this class relies heavily on a financial accounting foundation.)

7. **Class venue and time**

	Section/Group: 026401	Section/Group: 026402
Day and time:	Wednesdays, 01:00 – 04:00 p.m.	Wednesdays, 09:00 a.m. – 12:00 noon
Venue:	Room #206, TBS Building, East wing	Room #206, TBS Building, East wing
Remote classes:	Zoom meeting (occasionally)	Zoom meeting (occasionally)
Class platform:	MS Teams: **FN201-26F-BBA-G1**	MS Teams: **FN201-26F-BBA-G2**
Teaching assistants:	Aye Than Thar Khin	Kay Tha Ri Aung

8. **Date of preparation or most recent revision of the course syllabus**

   July 13, 2026

Section 2: Course Aims and Objectives

1. Course aim and objectives

1.1 Course aim

This course is designed to enable students to make financial decisions that are consistent with the primary goal of financial management by applying the fundamental axioms of finance.

1.2 Course objectives

After completing this course, students are able to accomplish the following learning outcomes:

- Apply, in aggregate, the 10 axioms of business finance to make decisions on investment projects that are consistent with the primary goal of financial management.
- Apply quantitative analysis to make decisions about business and personal finance.
- Adhere to academic honesty.
- Be responsible for one's duties, and accountable for one's own actions.
- Become up to date on emerging trends in business.

2. Course-level learning outcomes (CLOs)

Upon completion of this course, students will be able to:

- CLO1: Apply, in aggregate, the 10 axioms of business finance to make decisions on investment projects that are consistent with the primary goal of financial management.
- COL2: Apply quantitative analysis to make decisions about business and personal finance.
- CLO3: Adhere to academic honesty.
- CLO4: Be responsible for one's duties, and accountable for one's own actions.
- CLO5: Become up to date on emerging trends in business.

3. Relationship between CLOs, PLOs, and a YLO

CLOs		PLO1	PLO2	PLO3	PLO4	YLO2
CLO1	Apply, in aggregate, the 10 axioms of business finance to make decisions on investment projects that are consistent with the primary goal of financial management.	K1				✓
CLO2	Apply quantitative analysis to make decisions about business and personal finance.		S6			✓
CLO3	Adhere to academic honesty.			E1		
CLO4	Be responsible for one's duties, and accountable for one's own actions.			E1		
CLO5	Become up to date on emerging trends in business.				C2	

Notes: PLOs and a YLO

- PLO1 (K1): Students possess core knowledge and understanding in the science of business administration
- PLO2 (S6): Students can apply the concepts of mathematics, statistics, and quantitative analysis to their analysis and decision in both business and daily life.
- PLO3 (E1): Students possess quality of honesty, sacrifice and self-restraint. Take responsibility for their own action, society and environment.
- PLO4 (C2): Students are up to date on social and business issues.
- YLO2: Students have a basic understanding in various aspects of business administration.

Section 3: Course Structure and Delivery

1. Course description

The basic principles of financial management for business, the responsibilities of financial managers, maximization of enterprise value, axioms of finance, analysis of financial reports, cash flows, fundamental analysis on risk and rates of returns, the time value of money, working capital policies, capital budgeting techniques, financing mix, short-term and long-term sources of funds, distributions to shareholders, the costs of capital, and an introduction to developments in the financial industry, such as sustainable finance, digital assets

2. Number of hours per semester

Lecture / In-class activities (hours)	Practical training (hours)	Self-study (hours)
3	0	6

3. Number of Hours per week for lecturer's feedback and academic consultation (individual basis)

See Section 1 (Sub-section 4.1).

Section 4: Development of Expected Course Learning Outcomes (CLOs)

Teaching and learning methods to develop students' knowledge and competencies, and assessment methods for measuring course learning outcomes (CLOs).

Expected Course Learning Outcomes (CLOs)		Teaching and learning methods						Assessment methods			
		Interactive lectures	Flipped classroom via recorded lecture clips	Individual assignments with self-accessed solutions	A group assignment	Active learning using a project-based approach	Emphasis on the importance of Los and monitoring	Constructed response questions	Selected response questions	Individual assignments	A group assignment with self-and-peer assessment
CLO1	Apply, in aggregate, the 10 axioms of business finance to make decisions on investment projects that are consistent with the primary goal of financial management.	✓	✓	✓	✓	✓	✓	✓	✓	✓	
CLO2	Apply quantitative analysis to make decisions about business and personal finance.	✓		✓	✓	✓				✓	✓
CLO5	Adhere to academic honesty.	✓		✓	✓	✓	✓	✓	✓	✓	✓
CLO6	Be responsible for one's duties, and accountable for one's own actions.	✓	✓	✓	✓	✓	✓			✓	✓
CLO7	Become up to date on emerging trends in business.	✓	✓	✓	✓	✓	✓			✓	✓

Section 5: Teaching Plan and Assessment

1. Teaching plan

Week	Date (2026)	Topic/ description	Hours			Learning activities / media		Lecturer	Relevant CLOs
			Lecture	Practical training	Active learning				
1 2	Aug. 5 Aug. 12 (a remote class via Zoom meeting)	Course administration and syllabus **(1) An Overview of Business Finance** Course overview; finance; business finance; corporate life cycle; financial managers' responsibilities: working capital management, capital budgeting analysis, capital structure decisions; objectives of business enterprises: value maximization; firm's value model; MVA® and EVA®; emerging trends in finance: fintech and financial innovation, sustainable finance, artificial intelligence and finance	1	0	2	1; 3; 6	1) – 5); 8)	Obrom Chaowalerd	CLO1
2	Aug. 12 (a remote class via Zoom meeting)	**(2) The Axioms of Business Finance** Ten axioms of financial management: the risk-return trade-off*; different types of risk*; the time value of money; cash flows**; incremental cash flows**; taxes; the curse of competitive markets; efficient (financial) markets*; the agency problems**; business ethics (* more in FN312 ** more in FN311	1	0	7	1 – 3; 6	2) – 5)	Obrom Chaowalerd	CLO1 CLO3 CLO5
2 3	Aug. 12 Aug. 19	**(3) Financial Environments and markets** Cash flows between firms and financial markets; capital formation process; financial markets and institutions; financial securities; the cost of money*; the determinants of market interest rates* (* covered in topic (2) if not here)	4	0	4	1; 3	2) – 5)	Obrom Chaowalerd	CLO1

Week	Date (2026)	Topic/ description	Hours			Learning activities / media		Lecturer	Relevant CLOs
			Lecture	Practical training	Active learning				
		(4) <u>Financial Reports and Analysis of Financial Reports</u> Financial statements and reports*: the statement of financial position, the income statement, the statement of changes in stockholders' equity, statement of cash flows; financial analysis: liquidity ratios, asset management ratios, debt management ratios, profitability ratios, market value and other ratios; trend analysis, common-size analysis, and percentage-change analysis; tying ratios together: The Du Pont Equation; operating cycles and cash cycles: concepts and applications; comparative ratios and benchmarking; limitations of ratio analysis; looking beyond the numbers (* Self-review financial reports in AC201 or AC291)	0	0	28	1 – 5	2) – 8)	Obrom Chaowalerd	CLO1 CLO4
4 5 6 7	Aug. 26 Sept. 2 Sept. 9 Sept. 16	**(5) <u>The Time Value Of Money</u>** The time value of money; timelines; various types of cash flows; future values and present values of single sums, annuities, growing annuities (regular, delayed, and due), and irregular cash flows; present values of perpetuities and growing perpetuities (regular, delayed, and due); finding the interest rates and the numbers of years; the rule of 72; finding annuity and perpetuity payments; fractional time periods; asynchronous frequencies of cash flows and compounding; more applications on amortized loans; flat-rate or add-on-interest loans; bond and stock valuation*; basic financial planning (* more in FN312)	13	0	19	1; 3; 6	2) – 5); 7) – 8)	Obrom Chaowalerd	CLO1 CLO2

Week	Date (2026)	Topic/ description	Hours			Learning activities / media		Lecturer	Relevant CLOs
			Lecture	Practical training	Active learning				
8	Sept. 30	**(6) <u>Financing Policies</u>** Types of assets: working capital versus non-current assets; variable versus permanent assets; operating versus non-operating assets; spontaneous versus non-spontaneous assets; types of funds: short-term versus long-term (or permanent) funds; operating versus non-operating short-term funds; non-interest-bearing versus interest-bearing short-term funds; spontaneous versus non-spontaneous funds; financing policies: maturity matching or hedging or self-liquidating; conservative; aggressive	3	0	3	1; 3; 6	2) – 5)	Obrom Chaowalerd	CLO1
		(7) <u>Short-Term and Long-Term Sources of Funds</u>* Short-term sources of funds: types and pros and cons; accruals and trade credit; types of credit terms; the implicit cost of trade credit; short-term bank loans: types and key characteristics; criteria used when choosing a bank; commercial papers: types, key characteristics, and pros and cons; use of security (AR and inventory) in short-term financing: types, key characteristics and pros and cons major types of long-term funds; long-term loans: key characteristics, types, pros and cons; debentures and bonds: key characteristics, types, pros and cons; lease financing; a conceptual comparison between buying and leasing assets preferred stock: key characteristics, types, and advantages and disadvantages; common stock: key characteristics, types, and pros and cons, pre-emptive rights; warrants: key characteristics and types; retained earnings (* As main issues are discussed in topic #8, this topic is for self-study and will be covered if time permits only.)	0	0	6	2 – 3	2) – 5)	Obrom Chaowalerd	CLO1

Week	Date (2026)	Topic/ description	Hours			Learning activities / media		Lecturer	Relevant CLOs
			Lecture	Practical training	Active learning				
9 10 11	Oct. 7 Oct. 14 Oct. 21	**(8) Capital Structure and the Cost of Capital*** A preview of capital structure** issues; the concepts of the cost of capital; costs of debt, preferred stock, common equity***: the discounted cash flow (DCF) approach, judgmental-risk-premium approach; weighted average cost of capital (WACC); the marginal cost of capital (MCC); the MCC schedule; break points; adjusting the cost of capital for risk; flotation costs; some problem areas in the cost of capital; effects of debt financing on the WACC and firm's value (the Trade-Off Model only) * Review topic # (5), (6), (7), and (10) ** Detailed capital structure theories are in FN311 *** The CAPM approach is covered in FN312.	7	0	7	1 – 3	2) – 5); 7) – 8)	Obrom Chaowalerd	CLO1
11 12 13	Oct. 21 Oct. 28 Nov. 4	**(9) Capital Budgeting Techniques*** An overview; good characteristics of investment evaluating criteria; net present value (NPV); internal rate of returns (IRR); modified internal rate of return (MIRR); profitability index (PI); payback period (PBP); discounted payback period (DPP); assumptions of investment evaluating criteria; NPV profiles; advantages and disadvantages of each investment evaluating criterion; comparing projects with unequal scales and lives: a replacement chain and an equivalent annual annuity; optimal capital budget; decisions used in practice (* Review topic #5. ** Except estimating the free cash flows of projects (covered in FN311); basic FCF computations are illustrated in topic #2.)	7	0	7	1; 3	2) – 5); 7) – 8)	Obrom Chaowalerd	CLO1

Week	Date (2026)	Topic/ description	Hours			Learning activities / media		Lecturer	Relevant CLOs
			Lecture	Practical training	Active learning				
14 15	Nov. 11 Nov. 18	**(10) Distributions to Shareholders: Dividends and Share Repurchases*** An overview of cash distributions; procedures for cash distributions; cash distributions and firm value; types of dividend policies: stable, predictable dividends, constant dividend payout ratio; low-regular-plus-extras dividends, residual dividends; setting the target distribution level; distributions through stock repurchases; comparison of dividends and repurchases; other factors influencing distributions; stock splits and stock dividends: mechanisms, motivations, and effects on shareholders' wealth (* more in FN311)	6	0	6	1; 3; 6	2) – 5)	Obrom Chaowalerd	CLO1
		Total hours	**45**	**0**	**90**				

Learning activities	Media	
1. Interactive lectures	1) The course syllabus	7) A spreadsheet program (e.g., Excel)
2. Flipped classroom via recorded lecture clips	2) Lecture notes (10 main topics)	8) Artificial intelligence
3. Individual assignments with self-accessed solutions	3) The main textbook (Detailed information on the first page of each lecture note)	
4. A group assignment	4) Self-test question sets (10 major topics)	
5. Active learning using a project-based approach	5) Individual assignments	
6. Emphasis on the importance of LOs and monitoring	6) The group assignment (the project)	

2. Assessment plan for expected course learning outcomes (CLOs)

- Measurement and evaluation of learning achievement

  1) Assessment tools and weighting criteria

CLOs and Assessment Weighting	Course Learning Outcomes (CLOs)					
	CLO1	CLO2	CLO3	CLO4	CLO5	**Total**
(1) (1) Assignments (Due dates: Wed. by 09:00 a.m. (Group 2) or 01:00 p.m. (Group 1) via a platform suggested by the TAs)						**20%**
(1.1) Individual assignments*						5%
(1.1.1) Assignment #1 (Due: Aug. 26, 2026)					1%	
(1.1.2) Assignment #2 (Due: Sept. 9, 2026)		1%				
(1.1.3) Assignment #3 (Due: Nov. 18, 2026)	3%					
(1.2) The group assignment** (Due: Sept. 16, 2026)						15%
(a) Data, computations, and analysis		12%				
(b) Self-and-peer evaluations			3%			
(2) Exams***						**80%**
(2.1) The mid-term exam**** (Wed., Sept. 23, 2026, 09:00 – 11:30 a.m.; topics 1 – 5 mainly)						35%
(2.1.1) Selected response questions				25%		
(2.1.2) Constructed response questions				10%		
(2.1) The final exam**** (Wed., Dec. 2, 2026, 09:00 a.m. – 12:00 noon.; non-cumulative; topics 6 – 10 mainly)						45%
(2.2.1) Selected response questions				45%		
(2.2.2) Constructed response questions				0%		
Total	**3%**	**13%**	**3%**	**80%**	**1%**	**100%**

*Individual assignment scores are based totally on attempt and completeness, and timeliness.

**Form a group of 4 - 5 members to work on the group project. However, working solo is not consistent with one of the course learning outcomes and thus is strictly not permitted. One could post for team members on the class MS Teams under the subject "Team members needed." Group assignment scores are based mainly on attempt and completeness, and punctuality for the group, and adjusted by self-and-peer evaluations for each team member.

***Exams are proctored closed-book ones with sufficient formula and interest-factor tables provided. Students are allowed to use up to two simple, or non-graphing and non-programmable scientific, or financial calculators.

****Additional instructions about examinations will be provided 1 – 2 weeks before the exams.

2) Evaluations and grading

(a) Assessment of course learning outcomes (CLOs)

CLOs	Assessment methods	Expected CLOs	Alternative approach(es) for improved CLOs
CLO1: Apply, in aggregate, the 10 axioms of business finance to make decisions on investment projects that are consistent with the primary goal of financial management.	Individual assignment #3 (A #3) that covers comprehensive knowledge in business finance	The total scores of A #3 are at least 40% of the full points.	The total scores of 1 relevant exam question is at least 40% of the total points.
CLO2: Apply quantitative analysis to make decisions about business and personal finance.	Individual assignment #2 (A #2) that covers the application of quantitative analysis in business and personal finance.	The total scores of A #2 are at least 40% of the full points.	The total scores of 1 relevant exam question is at least 40% of the total points.
CLO3: Adhere to academic honesty.	Monitoring behaviour during exams and validate assignments	There is no academic dishonesty during exams nor in assignments.	Each student gets re-assessed following Thammasat University Regulations on Student Discipline B.E. 2568 (2025).
CLO4: Be responsible for one's duties, and accountable for one's own actions.	Verifying from self-and-peer evaluation forms	The average self-and-peer evaluation scores reflecting the cases of missing the final deadline and externalizing responsibility are at least 25% of the full points.	There is no recommendation at the moment as there is only 1 group project.
CLO5: Become up to date on emerging trends in business.	Individual assignment #1 (A #1) that covers an innovation in finance or business, e.g., one of innovative business models, products or services, investible assets	Each student can illustrate at least 1 innovation in finance or business.	The scores of 1 relevant exam question or a resubmission of another A #1

(b) Grading

A final grade is determined according to the following criterion.

Total (%)	0 – 39.99	40 – 44.99	45 – 49.99	50 – 59.99	60 – 69.99	70 – 79.99	80 – 89.99	90 – 100
Grade	F	D	D+	C	C+	B	B+	A

However, students who engage in academic dishonesty in an assignment or an exam will earn zero point for it and will be penalized according to (1) Thammasat University Student Examination Regulations 2006, Section 7 (2), and (2) Thammasat University Student Discipline Regulations 2025, Section 7 (4), 8 (4).

Notes: (1) Inquiries about all types of scores and related questions are welcome in person or via the class platform (MS Teams).

(2) For both finance majors or minors, and non-finance majors or minors, a passing grade is a D or above. A finance major or minor who receives a D or a D+ passes this course, and, is not required to retake this course.

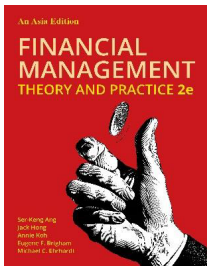

3) The use of artificial intelligence

The university supports the ethical use of artificial intelligence (AI) tools in teaching and learning, fostering creativity, understanding, and social responsibility, as follows:

- Supporting the management of educational data and the input of personal data using AI tools, adhering to AI ethics and complying with laws, regulations, and announcements regarding PDPA.
- Supporting the use of AI tools in teaching and assessment activities to develop effective and creative teaching.
- Supporting the use of AI tools in learning, performing tasks, and selecting and using information retrieved from AI tools accurately and creatively.
    - Examples of potential applications include using AI to generate ideas, summarize key points, or draft report and email structures for faster processing. However, it is crucial to verify the accuracy of the data from the AI before use or referencing it, and to clearly indicate if AI was used as part of the creative process according to established guidelines.
    - Examples of prohibited uses include claiming AI results as your own work without modification or verification, feeding sensitive or confidential personal information into public AI, and being cautious of AI that may generate unsubstantiated or false data (hallucination).

Section 6: Teaching and Learning Resources

1. Required textbook

- Ser-Keng Ang, Jack Hong, Annie Koh, Eugene F. Brigham and Michael Ehrhardt, **Financial Management**: **Theory and Practice**. (An Asia Edition), 2nd Edition, (Cengage Learning, Singapore: 2021). = **FM** (we = **FM**'s Web Extension; wc = **FM**'s Web Chapter)
    - Please visit http://www.cengageasia.com for supplementary materials.

2. Suggested materials

- Other corporate finance, financial management, business finance textbooks
- Local business newspapers, *The Asian Wall Street Journal*, *BusinessWeek*, *The Economist*, *Forbes*, *Fortune*, other financial and economic Websites.
- Useful local Websites

Companies' websites

Section 7: Course Evaluation and Improvement

1. **Strategies for evaluating course effectiveness by students at the end of the semester**

   Students are required to evaluate the effectiveness of the course through a survey instrument, including the following components:

   1.1 Five-point rating scale evaluation assessing levels of satisfaction regarding learning activities, assessment methods, resources, and the overall course experience.

   1.2 Recommendations for course improvement

2. **Strategies for evaluating teaching effectiveness**

   2.1 Student evaluation of individual lecturer

   2.2 Review of examination results and overall student academic performance.

   2.3 Student feedback and reports (if any)

3. **Teaching improvement**

   3.1 The course administrator is responsible for reviewing the information Item 2 and use such data to improve teaching practices both during the class and at the end of the academic year or prior to the beginning of the new semester.

   3.2 The lecturer is responsible for all classroom activities. He shall review and update their lesson plans annually to ensure that the content remains current and relevant.

4. **Verification of student learning outcomes**

   The course coordinator shall verify student learning outcomes through the following processes:

   4.1 Review the alignment among learning objectives (expected learning outcomes), teaching and learning strategies, and assessment methods.

   4.2 Monitor and ensure that the delivery of student learning experiences complies with the study plan.

5. **Reviewing and planning for course effectiveness improvement**

   5.1 Prepare a course report summarizing the effectiveness and efficiency of course management and delivery.

   5.2 Analyze the causes in cases where implementation does not meet expected outcomes, and propose solutions.

   5.3 Formulate an improvement action plan for the next academic year.
